Sir,

Sub: ELECTORAL ROLLS - House of the People and Madras Legislative Assembly Annual revision 1952 - Maintenance of National Registers of Citizens and Conduct of Sample Census - Report submitted.

Ref:-1.G.O.Ms.No.1964 Public (Elections) Department dated 2.8.1952.

3.Adoni Municipal Commissioner's C.No.6097/52.C.3. dated 14.8.1952.

The Tahsildar, Adoni, reports ~~that~~ in his reference cited above that the 18 wards which were in existence at the time of Census 1951 were subsequently increased to 29 wards by amalgamating 2 or 3 portions of old wards. The National Registers of citizens for the Adoni Municipal area were written up for the 18 wards as the old order. The new 11 wards which have sprung up consequent on the amalgamation of the portions of old wards as stated above, are reported to have not yet been numbered. The Municipal Commissioner, Adoni states in his reference cited above that the new wards could not be numbered as yet as the general revision was commenced only on 1.8.1952.

P.T.O.,

He further adds that the question of assigning numbers to the houses in the new wards would be taken up only after the general revision is settled by the Special Officer and the completion of the work will take about 3 to 4 months.

2 In the above circumstances, I request to be enlightened whether the intensive revision in Adoni ~~Municipality~~ Municipality has to be postponed for a period of three months when the general revision will be completed or to proceed with the work on the present basis on 18 wards. If the work is proceeded on the basis of the present 18 wards, the National Registers as well as the Electoral rolls will not agree at several stages after the formation of new wards. I request immediate orders in the matter.

Sub: Electoral Rolls - House of the people and M.L.A. - Annual revision 1952 - Maintenance of National Registers of citizens and conduct of sample census - Report submitted.

Your Rc.No.6312/52.D. dt.8.8.1952.
Adoni Municipal Commissioner's Rc.No.6097/52.C.3. dated 14.8.52.

There are 18 wards in Adoni Municipality. These wards have been redistributed into 29 wards by amalgamating even 2 or 3 portions of old ward in to one new ward. The Electoral rolls and the National Registers were written up only for 18 old wards.

The Commissioner, Adoni Municipality, Adoni in his reference 3rd cited above reports that the new ward numbers and commenced only from 1st August 1952 and that they can be given only after the revision is settled by the Special Officer which will take atleast 3 to 4 months. He adds that in the absence of the new ward and door Numbers it is impossible for any enumerator or supervisor to carry on with the work of bringing upto date the National Registers for 18 wards. This work will lead to much confusion if it is taken up at this stage. Further several portions of each existing ward of one National Register have to be split up and transferred to another register of the new ward in case the National Registers are to be prepared on the basis of redistribution of wards. The Commissioner, Adoni Municipality further reports that if the work is proceeded on the basis of the present 18 wards the National Registers as well as the electoral rolls will be a great handicap.

P.T.O.,

In these circumstances I request to be enlightened whether the work has to be postponed for a period of 3 months when the general revision will be completed or to proceed with the work on the present basis of 18 wards as suggested by the Commissioner. Early orders are solicited in the matter.

A copy of Adoni Commissioner's Rc.No.6097/52.C.3 dated 14.8.52 is enclosed.

Sub: Electoral Rolls - House of the People - M.L.A. - Annual revision 1952 - Maintenance of National Registers etc., list of Supervisors and enumerators - Appointment areas - Information - Furnished.

Ref:- Your C.No.4521/52.E. dated 13.8.1952 and dated 14.8.1952.

***

In continuation of my letter Rc.No.6097/52.C.3 dt.13.8.52, I am sending herewith a separate list showing the 29 wards with the portions of the present wards that go to make up each of new wards for necessary action.

As per allotments of houses made to each enumerator for writing up of National Registers in 1951 the number of houses range from 160 to 230 based on the compactness. Thus there are 50 enumerators but as per the number to be allotted at present as per G.O. mentioned by you the number goes upto 350 and hence half the number of enumerators engaged in 1951 seems to be quite sufficient. Thus there will be about 50% staff extra to meet the emergencies. You can therefore revise the allotments of houses suitably. Similarly no additional supervisors are required. Anyway 2 more enumerators Nos.28 and 42 Messrs.S.Hanumantha Rao and P.Gururaja char may be entrusted with the duties of the supervisor if necessary as they deserve the post and fit to do this duties.

The points for consideration are that:-

(i) The National registers are written up on the basis of the present state ie., for 18 wards. One book for each ward but according to the Registribution of wards these old 18 wards have become 29 wards by even amalgamating 2 or 3 portions of old ward into one new ward.

P.T.O.,

16

(ii) The Municipal elections of September 1952 and the general revision are based on New distribution of wards. New ward numbers and door numbers are not given since the general revision has commenced from 1st August 1952 only. These can be given only after the revision is settled by the special officer which will take atleast 3 to 4 months.

(iii) In the absence of the new wards and new door numbers it is not possible for any enumerator or supervisor to carry on with the work of bringing upto date the 18 wards National registers. This work will be very unwidely and leads to much confusion in case it is taken up at this stage. Further a lot of portions of each existing ward of the National Registers has to be transferred to another register of the new ward in cass the National Registers are to be prepared on the basis of redistribution of wards.

In the circumstances explained, I think you will do well to address the Government for either postponement of the work till the general revision is completed (3 months) or to proceed with the work on the present basis of 18 wards as at present. If the latter course if adopted the National Registers as well as the electoral rolls will be a great handicap.

The original list of enumerators and supervisors is also enclosed again.

Memo. No. [illegible] Dated. [illegible]

Electoral rolls - House of the People and M.L.A. - Annual revision, 1952 - Maintenance of National Registers of Citizens - Adoni Municipality.

Ref: From the R.D.O., Bellary Rc.No.6312/52.D, d/15.8.52.

In his reference cited the R.D.O., Bellary has requested instructions whether the intensive revision of electoral rolls in Adoni Municipality should be postponed for a period of three or four months pending the question of general revision of the numbering assigned to houses consequent ~~x~~on the redistribution ~~of~~ and formation of new wards in the municipality.

2. The R.D.O., Bellary is informed that the system of house numbering and marking on the houses adopted in the municipality is a permanent one which cannot ~~should not~~ be changed with reference to any alterations in the number of wards or re-distribution of wards in the municipality, except under the order of the Govt. in the Public (Elec) Dept. The electoral rolls for the House of the People and the M.L.A. relating to Adoni municipality and the N.R.Cs. relating to Adoni Municipality have been prepared on the basis of the existing system of numbering of houses in the municipality. In the present revision, only consolidated lists of amendments to the original rolls of 1948 have to be prepared and the N.R.Cs. already written up have to be brought up-to-date ~~with the corrections necessary noted in the blank back pages and the interleaved sheets in the registers~~ will be carried. There is no question of preparing afresh the electoral rolls or the N.R.Cs. Though the wards in the municipality may change and new wards may be formed, the electoral rolls based on the existing numbering of houses could be adopted for the purposes of elections to the municipality in the manner explained in sub-para (3) of para 4 of Govt No.7428/48-1 P.(E) dated 1.11.48.

3. The R.D.O. is informed

operation for the revision of electoral rolls and maintenance of National Registers of Citizens should be proceeded with according to the programme fixed by the Govt.

Not received.

I invite attention to Narasaraopet Municipal commissioner's letter No. Nil d/ 13-8-52 addressed to you. He reports the existing house-numbering will have tobe changed before intensive revision of electoral rolls has been taken up. In view of the instructions of the Government issued in their Memo No. 49035/50-2 B.L1 A d/ 16-1-52 and Memo No. 8853/2-BLA d/ 9-4-52, no revisionof house numbering appears to be necessary. The Rev. Dvl. Officer Narasaraopet is proceeding on with the intensive revision of electoral rolls under the existing system.

I request early orders in the matter.

PUBLIC DEPARTMENT

I invite attention to Narasaraopet Municipal commissioner's letter No nil dated 13-8-52 addressed to the Secretary Public (Elections) Department copied to you. As can be seen from his above letter, the Narasaraopet Municipal area which previously com--prised of 12 wards has since been ordered to be redistributed into 18 wards. The commissioner says that consequent on the above redistri--bution, the existing house numbering will have to be changed before intensive revision is taken up and that this work will entail a ~~first~~ lot of delay and seeks instructions in the matter.

2. Consequent on the redistribution of the existing wards, the Government in their memo No.8853-2-B L.4 dated 9-4-52 and 49035-50-2 B L.A. D.16-1-51 issued instructions that the elections to the Municipal councils can be held without changing the existing system of house numbering and also without reprinting the existing electoral rolls according to the regised ward system. Copy of I.L.B's Rc.9817-52 d.18.5.52 together with the Govt.Memoranda referred to above which were obtained from the Municipal office are enclosed for favour of perusal.

In view of the aforesaid orders no revision of house numbering appears to be necess ary. It is enough if the Municipal commissioner ~~xxx~~ ensures that all houses in his area are numbered in accordance with the system of house numbering now in force assigning numbers where new houses have come into existence and renewing obliterated figures.

3. I have therefore issued necess instructions to the Municipal Commissioner Narasaraopet him not to take up any wholesale revision of house numbering b with the Intensive revision work under the

I presume, that the procedure is justified. I request to be informed whether my presumption is correct.

Sub: Electoral rolls- House of the people and Madras Legislative Assembly annual revision- 1952 - maintenance of National registers and conduct of sample census- Nellore Municipality Increase in the number of wards instructions requested

Ref: i) G.O.Ms.No.1964 Public (Elections) Dept. d. 2-8-52
2) G.O.Ms.No.1453, L.A. dated 18-7-52

I submit herewith a copy of Nellore Tahsildar's report Rc.No.B1.4390-52 dated 13-8-52 . The electoral rolls of the Nellore Municipality were prepared and printed at a time when the Town comprised of 24 wards. In the G.O. second cited, the Government have ordered that the area should be regrouped into 28 wards. As a consequence, the numbers assigned to the houses on the basis of 24 wards will have to be changed to suit the corresponding alterations which result from the increase in wards to 28 and the regrouping of houses.

In G.O.Ms.No. 1964 Public (Elections) Department, the Government have ordered an intensive revision of the existing rolls in the Nellore Municipality (Vide item No.10 with 2 at page 11 of the G.O.) The increase in thenumber of wards to 28 since the preparationof the Electoral rolls will have this effect, namely some of the houses which have been allotted a particular ward in the previous electoral rolls may have to be allotted a different ward number at the time of revisionand the sequence in the house numbers also will be disturbed. I request orders whether, in view of the orders in G.O.Ms.No.1453 L.A. dated 18-7-52 constituting 28 wards in the Nellore Municipality, the entire house numbering in the town need be altered and fresh rolls prepared.

In the meanwhile, I have instructed the Tahsildar, Nellore, to go ahead with the work of verification, making house to house enquiries and note down the additions and deletions to the electoral rolls without reference to the revision of wards that has taken place recently. I solicit early orders as to the steps that I should takein view of the alteration in the numberof wards.

Sub: Electoral rolls- House of the people and the Madras Legislative Assembly annual revision 1952 - maintenance of National Register of citizens and conduct of sampe census in Nellore Municipality report- submitted

Ref: G.O.Ms.No.1964-Public (Elections)Dept. dated 2-8-52 and Collector's Rc.17171-52 dated 5-8-52

I submit that electoral rolls were prepared and printed for Nellore Municipality on the basis of 24 wards. In G.O. Ms.No.1455 Local Administration Department dated 18-7-52 the wards have been revised. According to the revision, the Municipality has beendivided into 28 wards. The elections to the Nellore Municipality council are coming up shortly. The Commissioner Nellore Municipality who is the election officer for the Municipal Elections has revised the existing electoral rolls in conformity with the revised wards. He has not however changed the existing numbering of the houses. Consequently the numbers already assigned, will not be in one series in the new wards. The entire numbering has therefore to be changed. Only when this change is effected, the assignment of numbers to the houses that have newly sprung up can be taken up. The existing electoral rolls and the National Registers too will not therefore be in accordance with the regrouping of the houses into 28 wards. I submit that till the positionis clarified and new numbers are assigned to houses in the revised wards, the revision work cannot be started in the town. Whenso many changes are to be effected the entire rolls may have to be prepared afresh. I solicit the favour of early instructions in the matter.
